

Lean Six Sigma Green Belt certification

Competency Development Programme

Learning & Development Academy by Grant Thornton Bharat

About Learning & Development Academy by Grant Thornton Bharat

The Learning & Development Academy is an upskilling service offering of Grant Thornton Bharat providing result-oriented finance and accounts, tech and business excellence courses to professionals and students. Our impactful programmes can be customised to help you gain skills and capabilities in your area of interest.

In a digital age, we strongly believe in retaining the advantages of a classroom environment, making the most of group learning while paying attention to resolving individual queries. Our trainers are seasoned experts who will share their journey along with best practices followed by the industry.

The Learning & Development Academy will leverage our Firm's rich experience in different domains across various industries and its knowledge base to share practical insights, helping participants understand and learn complex concepts.

About Lean Six Sigma

Growing businesses require accurate inputs to expand beyond geographical boundaries and overcome competition.

To achieve this, it is essential to analyse and benchmark these inputs to draw conclusions. Corporate objectives are set in leadership forums and board meetings, and strategies are devised to achieve them. However, a gap often exists between these objectives and the organisation's capabilities and process performance. Robust processes are necessary to deliver consistent output and support growth. Therefore, procedures are needed to ensure organisational capability, tightly managed processes, and a decrease in operational failures.

Lean Six Sigma is one of the methodologies that have been successful in achieving desired results. It provides guidance to practitioners on how to use relevant information to draw accurate conclusions and benchmark effectively. Additionally, it emphasises reducing errors and improving process excellence.

Programme overview and objectives

The programme, delivered by experienced Grant Thornton Bharat professionals and industry experts, covers:

Fact-based decision-making

Data-driven business conclusions

Analysis of market trends for practical use

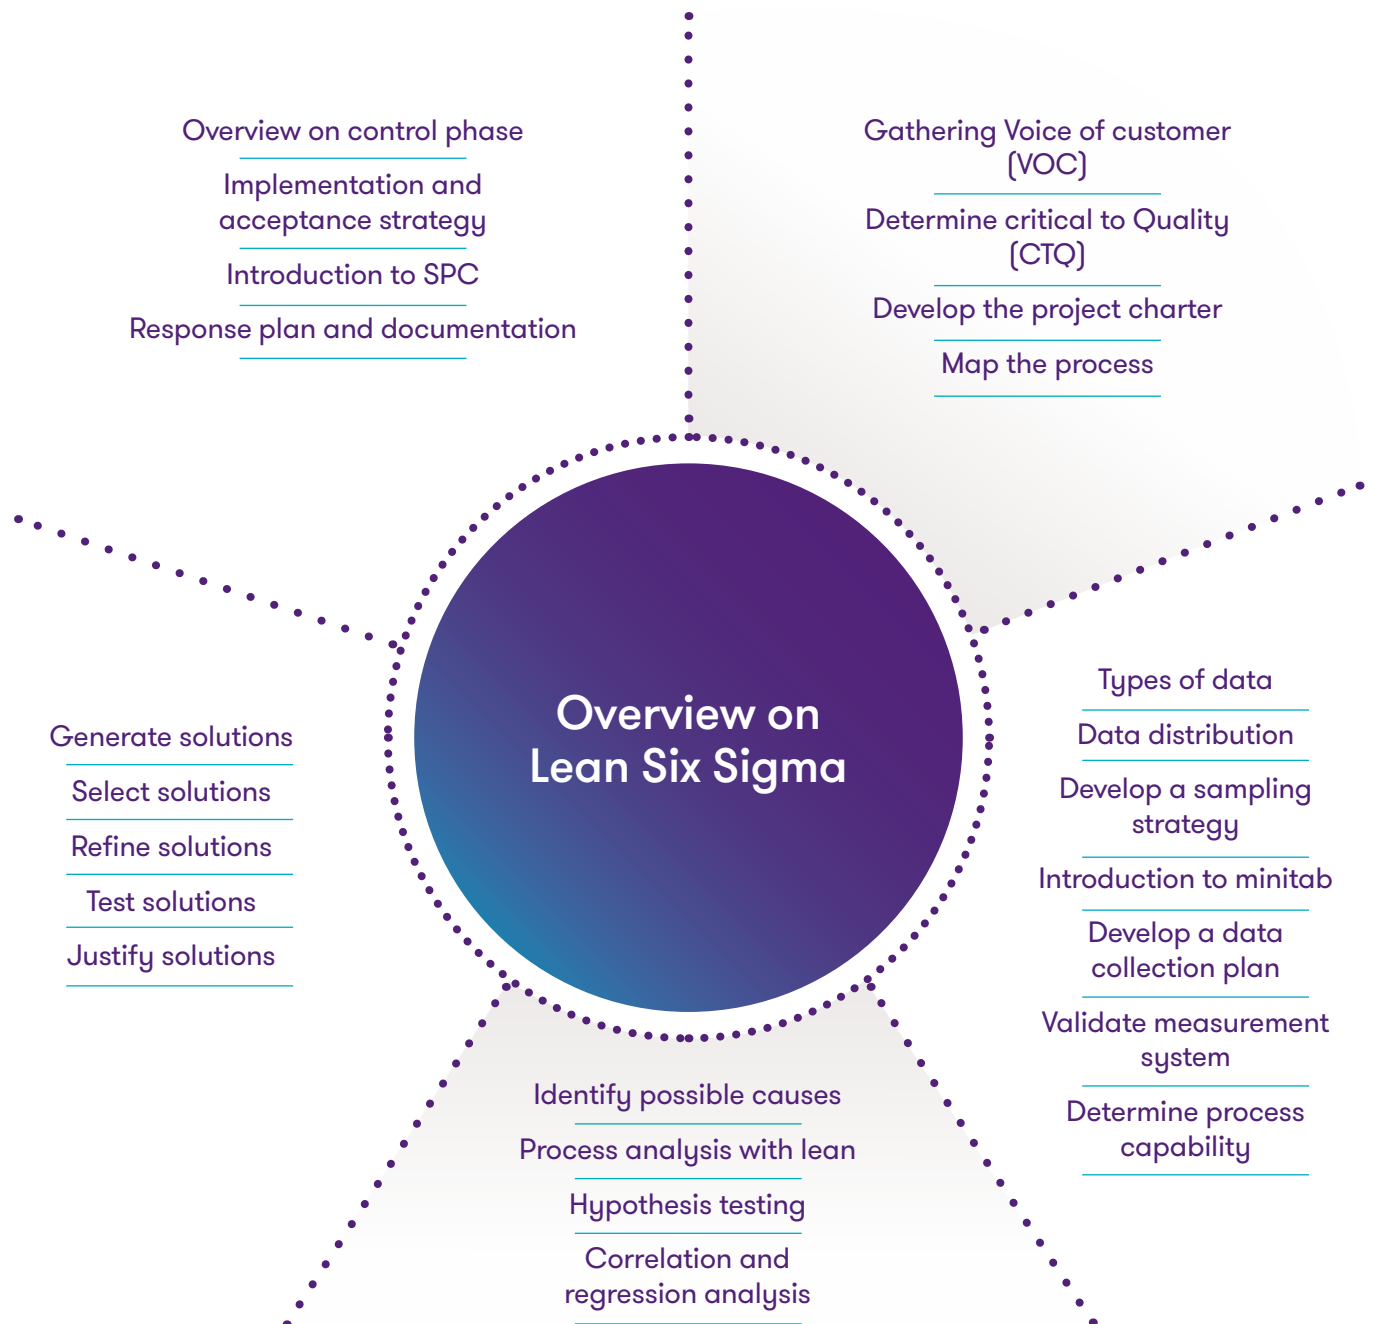

Cause analysis

Performance improvement

It also offers a practical demonstration of statistical tools and an opportunity to implement the best lean practices in a mini-group setup. This allows individuals to add value to their organisational goals using enhanced knowledge of issues, making fact-based decisions, and fixing unwanted elements in a process.

Based on our experience, many professionals have successfully embraced Green Belt teachings. These individuals belong to various sectors, such as, healthcare, logistics, aviation, banking, IT/ITeS, banking, finance, treasury, defence, marketing, research, telecom, brewery, heavy machinery, automobile, pharma, FMCG, outsourcing, seaways, marine, packaging, hospitality, and many more.
